

Hako Cityclean-O

Street cleaning

Product description	Oil remover for use on roads, cycle paths and footpaths.
Properties	Highly alkaline street cleaner for cleaning of all sorts of hard, waterresistant street surfaces / paving which have been contaminated with oil, diesel or similar fluids. Especially developed for use with the Hako-Citymaster. Hako Cityclean-O has been tested in combination with the Hako-Citymaster 1200 according to the DWA-M 715 test
Usage	Hako Cityclean-O can be used for the cleaning of roads, cycle paths and footpaths which have been contaminated with oil, diesel or similar fluids.
Dilution	10 - 50 ml per 1 litre water (1 - 5% / 1:100 - 1:20) Depending on the amount of dirt.
Instructions	Trough the integrated dispensing system the product can be added in the right dosage to the cleaningwater. Then scrub with brushes and vacuum. Used dilution may be discharged into public drains without posing a danger to the environment. Note: product is corrosive, use safety equipment!
